## U.S. LABELED CAIRO ENEMY

Nasser Says, 'Our Fight  
Is With America'

Cairo, May 2 (AP)—President Gamal Abdel Nasser singled out the United States tonight as Egypt's No. 1 enemy. He accused Washington of directing what he called "counterrevolutionary elements" inside Egypt and the Middle East.

In an address marking Workers' Day, Nasser charged the United States sought to dominate the world.

"The conceit of the Americans is so great," he declared, "that they want the entire world to say 'yes.' The United States is the leader of antirevolutionary forces everywhere, here and in the Middle East at large."

### Bazooka Incidents Noted

"America works in every field against revolutionaries," Nasser said. "Of course, they don't say anything about shooting bazooka shells into ammunition dumps in Yemen."

Nasser praised Yemeni President Abdullah Sallal for "adopting a revolutionary stand when the Americans were caught red-handed."

The United States has sought Egypt's good offices in obtaining the release of the two men who Yemenis say they will bring to trial.

"Our big fight is with America," Nasser declared.

"It is America which directs the counterrevolutionary battle against us because she is powerful."

Nasser labelled King Faisal of Saudi Arabia, King Hussein of Jordan, the Shah of Iran and President Habib Bourguiba of Tunisia—all frequent targets—"agents of the United States."

### Food Agreement Weighed

"Hussein is an agent of the Central Intelligence Agency who attacks us with insolent, dirty slanders," Nasser charged.

Nasser also charged the United States had sought to exert economic pressure on Egypt through the use in Egypt of Egyptian currency earned through the sale of American wheat.

The sale of American wheat for Egyptian currency always has been considered a relief to Egypt, which did not have to draw on limited hard currency reserves to pay for the wheat.
